Office Sought: House District 27
E-Mail Address: snyder4houserep@gmail.com
Party Affiliation: Democrat
Phone: 903-5799
Occupation: Legislator
Mailing Address: 6608 Mink Ave, Anchorage, AK 99508

- 1. Would you support a bill in line with HB 42, sponsored by Rep. Tammie Wilson, that would require a conviction before an alaskan's property could be permanently seized for violating the law?**

Response: Yes

- 2. Do you support net neutrality or the requirement that internet providers must equally enable access to all content and websites?**

Response: Yes

- 3. Do you agree that Alaskans have the right to speak out on political issues and elections and that this right includes their ability to use their personal resources to amplify that speech?**

Response: Yes

- 4. What is your position on Voter ID and what information must be provided to register to vote or cast a ballot on election day?**

Response: I believe that voting is a fundamental right, and that voters should be able to cast their votes without undue barriers or unnecessary documentation. That said, they should be able to provide some document with a name and address on election day so that we can protect our voting systems.

5. Do you support allowing election day voter registration?

Response: Yes

6. Do you support allowing voters to automatically update their information when they apply for the PFD?

Response: Yes

7. Do you support a statewide non-discrimination ordinance to protect LGBTQ Alaskans from being fired from their jobs, denied access to housing, or refused services on the basis of their sexual orientation or gender identity?

Response: Yes

8. Do you support parental notification laws that deny women under the age of 18 access to abortion without the consent of an adult?

Response: No

9. Do you support Real ID, or the federalization of DMV documents?

Response: I am hesitant about the federalization of these documents, and I would like to learn more about the ACLU's stance on these issues.

10. Do you believe state and local law enforcement should be using facial recognition technologies on the general public?

Response: No, the technology discriminates against people of color unduly.

11. What is your position on the Internet Privacy Act? Do you believe the State of Alaska should act to return privacy protections overturned by President Trump on a federal level in 2017?

Response: I would like to learn more about this by talking with the ACLU, as I don't feel educated enough on the issue to say definitively.

12. As marijuana has been made legal for purchase for adults over the age of 21 in Alaska, would you support removing prior convictions for marijuana related offenses that are no longer crimes from publically accessible legal databases?

Response: Yes.
