- 1. Would you support a bill in line with HB 42, sponsored by Rep. Tammie Wilson, that would require a conviction before an Alaskan's property could be permanently seized for violating the law?**

Response: YES

- 2. Do you support net neutrality or the requirement that internet providers must equally enable access to all content and websites?**

Response: YES, but we need to be able to prioritize traffic for things like public health and emergency services. Video services, like Netflix are bandwidth hogs, and can create access issues in rural communities, especially in areas where we're relying on satellite. We need to be able to prioritize services like telemedicine and emergency services if it's necessary.

- 3. Do you agree that Alaskans have the right to speak out on political issues and elections and that this right includes their ability to use their personal resources to amplify that speech?**

Response: Yes. There should be transparency in contributions. There should be reasonable caps for giving. There should be limits to the amount individuals can contribute to their own campaigns.

- 4. What is your position on Voter ID and what information must be provided to register to vote or cast a ballot on election day?**

Response: A voter should be able to present some informational document that allows for them to vote at the poll.

- 5. Do you support allowing election day voter registration?**

Response: Yes, however, I support moving to a statewide vote-by-mail system.

- 6. Do you support allowing voters to automatically update their information when they apply for the PFD?**

Response: Yes

- 7. Do you support a statewide non-discrimination ordinance to protect LBGTQ Alaskans from being fired from their jobs, denied access to housing, or refused services on the basis of their sexual orientation or gender identity?**

Response: Yes

- 8. Do you support parental notification laws that deny women under the age of 18 access to abortion without the consent of an adult?**

Response: No

- 9. Do you support Real ID, or the federalization of DMV documents?**

Response: No

- 10. Do you believe state and local law enforcement should be using facial recognition technologies on the general public?**

Response: No.

- 11. What is your position on the Internet Privacy Act? Do you believe the State of Alaska should act to return privacy protections overturned by President Trump on a federal level in 2017?**

Response: Yes

- 12. As marijuana has been made legal for purchase for adults over the age of 21 in Alaska, would you support removing prior convictions for marijuana related offenses that are no longer crimes from publicly accessible legal databases?**

Response: Yes
